AFFAIRS OF THE DISTRICT

The Commissioners Approve of a Reception to the President.

Views of the Board of Trade on the Subject Submitted—Dr. Woodward to Attend Health Conference—The Protest of a Citizens' Association.

The District Commissioners are heartily in accord with the plans suggested by the Board of Trade of Washington to give the President a fitting reception upon his return to the National Capital. They received from the Board of Trade today its views in regard to the matter. The Board signified a willingness to take charge of the arrangements for the event.

As yet nothing beyond a few indefinite suggestions have been made with reference to the matter. In the first place the proposed reception is conditioned upon the President's final recovery and restoration to health, which now seems assured. In the next place the reception will be conditioned upon the state of Mr. McKinley's health when he comes to Washington. It should be in a comfortable condition and not in his accustomed strength the appearance of military, of shouting crowds and booming guns might be entirely out of place.

Commissioner Ross suggested today that under such circumstances, thanksgiving in the churches might be the better way to show the gratitude of the District for the outcome of the attack upon the President's life.

The Commissioners are agreed that whatever is done shall be with the knowledge and co-operation of Mr. Cortelyou, the President's Secretary, who will be in position to make known the President's wishes. The Commissioners are of the opinion that no great demonstration is necessary to show the President the entire loyalty and sympathy of the people of the District. At the same time they recognize the propriety of giving the President such a reception as only the people of the District can give, who have known him so long and who recognize his work as a man and his honor as the Chief Magistrate. The Commissioners, therefore, are ready to meet the President in the people in whatever way may seem best at the time when the President comes home.

Commissioner Macfarland today said in reference to the matter:

"The President is out of danger, or I would not be here, for I felt it to be my duty to remain until that point was reached. As I telegraphed Commissioner Ross yesterday afternoon, I hope that within a month we will be able to appropriately receive the President to Washington." I told Secretary Cortelyou yesterday afternoon that the Commissioners would desire to formally welcome the President on his return, after such an extraordinary experience, and in token of the District's appreciation of his deliverance from death, and he said that he knew the President would be glad to receive such a welcome. I did not, of course, know at that time of the Board of Trade's suggestion of a welcome for the President, but am very glad to know that as was to be expected, the Board of Trade and all the other citizens are ready to take part in the preparation for whatever may turn out to be the most appropriate form of showing the District's feeling.

"After the success of District Day and of the gracious hospitality of Buffalo, then and on President's Day, the tragedy of Friday came with a terrible, crisp, but providential recovery from it has been even more remarkable. As we went through the funeral of President's Day, I thought I had never seen the President looking so well or so happy, and he told me while we were waiting for luncheon that he felt just as he looked. He said he had perfect rest at Canton, and that it had done him good. He said that was a fortunate preparation for the event which was to happen so unexpectedly the next day. The President was delighted with the Pan-American Exposition and with the exposition in its admirable condition and there are no more hospitable people than the men and women of Buffalo, whose courage and ability have made it what it is."

"I conveyed to Secretary Cortelyou as promptly as possible the sympathy of the District, and before I left, his congratulations. Secretary Cortelyou said the President was especially interested in the feeling of the District."

Dr. William C. Woodward, the Health Officer, will leave the city tonight for Niagara Falls to attend the meeting of the conference of the State and Provincial Association of Health Officers.

Dr. Woodward is also a member of the board of directors of the Buffalo Association of Health Officers, which will meet on September 12 and 13. Dr. Woodward is a member of the association and will represent the District therein.

September 16 to 20 the American Public Health Association will meet in Buffalo. Dr. Woodward is also a member of the body. He is a member of three important committees of the Refuse Disposal, of Infectious Diseases and of Vital Statistics.

These two associations are counterparts of one another. The Buffalo Association of Health Officers is a body principally with legislative matters and health regulations in the United States and Canada. The latter has to do with the execution of laws and the working out of practical sanitation.

A committee of the East Washington Heights Citizens' Association called upon Commissioner Macfarland this morning to place before him the protest of the residents and property holders of Good Hope against the site chosen for the Good Hope school building. The committee was composed of H. A. Buscher, D. C. Fountain, W. N. Freeman, C. Segelhorn, and J. W. Many.

The committee submitted to Mr. Macfarland the petition sent to the Commissioners several days ago signed by forty heads of families representing 252 persons, and by eleven families in Maryland representing seventy-two persons. The signatures represent all the white patrons of the school except one.

The petition states that the site chosen is remote from the great part of the white children who will attend the school, and that it is in the heart of the negro settlement in Good Hope, and they pray that a new site may be chosen which will be better adapted to the purposes for which the site is to be used.

The Superintendent of Repairs has forwarded to the Commissioners proposals, for furnishing one tubular boiler for the male workhouse at the Washington Asylum. He recommends that the bid of W. H. McCuen & Co. be accepted.

Theodore F. Stokes, of 712 Mount Vernon Place, has written to the Superintendent of Parking, calling attention to two spruce trees at the northeast corner of Eighth Street and Mount Vernon Place northwest of Mount Vernon Place. He says that the trees ought to be removed.

Trueman Latham, the Superintendent of Parking, in presenting the matter to the Commissioners, states that the trees referred to are rather close to the Norway maple, he does not think that they ought to be removed. He thinks that the tree in front of 717 should be removed, but not the one in front of 712.

The recommendations of the Superintendent have been approved by the Commissioners, and Mr. Stokes will be so informed.

DYSENTERY CURED WITHOUT THE USE OF DRUGS.

"I am just up from a bad case of the flag" (dysentery), says Mr. T. A. Pinner, a well-known merchant of Brunswick, Tenn. "I used one small bottle of Chamberlain's Colic, Cholera, and Diarrhoea Remedy, and was cured without having a doctor. I consider it the best medicine for bowel complaint I have ever used, and I am employing a doctor when this remedy is used, for he does not prescribe a better medicine for bowel complaint than Chamberlain's Colic, Cholera, and Diarrhoea Remedy. It is a pleasant and reliable remedy, and I have used it, and it is sold by all druggists, and at the retail, 25¢ a bottle, and all druggists."
